over 155,000 flowers in displays tucked in the terraces and walkways of the garden.

The therapeutic sounds of flowing waters can be heard throughout the garden in various capacities. At the far end of the Garden, 120 foot Peace Towers immerse symbolizing people from the four corners of the earth coming together to form two similar, but distinct nations, with a common base of democracy and beliefs. The American and Canadian floral flag displays are the only two floral displays throughout the garden, which remain the same every year. The working 13 foot floral clock displays 2,500 to 2,000 flowers each year depending on the design.

Peace rings in the International Peace Garden every inch of its being. Every fifteen minutes and on the hour, the lovely tones of the chimes can be heard from the Carillon Bell Tower. Peace Poles, presented by the Japanese Government, in which, "May Peace Prevail" is written in twenty-eight different languages. The Peace Chapel is the only building straddling the U.S. and Canadian Border. The chapel features dozens of quotes from "People of Peace" etched into beautiful fossil embellished limestone walls. In the truly inspirational Garden's Chapel lies open a book of remembrance, display-

ing the names of the victims of 9/11. The 9/11 Memorial Site, of twisted girders rescued from the World Trade Center devastation, are at rest, a symbol of peace and democracy. **The International Peace Garden**, "Like No Other Place on Earth", is a perfect and memorable retreat, where people and nature meet.
